

COVID POLICIES

8-19-21

With your help, we can keep our students and staff safe and healthy this year!

- As of 8/16/21 Masks are mandatory for ages 3 & up inside the studio.
- As new information comes (almost daily) from the CDC about what actions should be taken in the case of a potential Covid 19 exposure, we wanted to remind you of our exposure policies as recommended by the CDC as of this posting (8/19/21).
 1. If your child has been exposed to Covid outside of the home (school, church, daycare, ect.), you must quarantine for 14 days from the date of the exposure .
 2. If your child has been exposed to COVID inside the home and has been separated from the positive COVID patient, you must quarantine for 14 days from the exposure, before your child may return to dance/gymnastics as long as they are not showing any signs of Covid-19. If you choose to test the exposed child (who has remained separated from the patient), you need to wait at least 5 days to test. You need to take a PCR test (not a rapid test), remain separated from the COVID patient, and submit your "negative" result to JMAD if you wish for your child to attend classes before the 14 days pass.
 3. If your child has been exposed to COVID inside the home and has NOT been separated from the positive COVID patient (ongoing exposure) then the date of last potential exposure is 10 days after the onset of symptoms of the positive COVID patient and 14 days quarantine after last potential exposure.

As always, please alert us if you have had a covid exposure and will be missing class. We will do our best to send you supplemental videos and activities so your child doesn't miss too much of class.
